- (i) must fall within a description of products eligible for concessions in the Party of destination ;
- (ii) must comply with the consignment conditions that the Goods shall not be considered to be originating if they undergo subsequent production or any other operation outside the territories of the Parties, other than operations necessary to preserve them in good condition or to transport them to the territory of the other Party, provided that the goods are not traded or used outside the territories of the Parties ; and
- (iii) must comply with the origin criteria given in the next paragraph.

3. **ORIGIN CRITERIA :** For exports to the above mentioned Parties to be eligible for preferential treatment, the requirement is that either :

Headnotes to the Annex

1. The specific rule, or specific set of rules, that applies to subheading (6-digit code) is set out immediately adjacent to the subheading.
2. For the purposes of this Annex:
 - (a) “CC” means that all non-originating materials used in the production of the good have undergone a change in tariff classification at the two-digit level;
 - (b) “CTH” means that all non-originating materials used in the production of the good have undergone a change in tariff classification at the four-digit level;
 - (c) “CTSH” means that all non-originating materials used in the production of the good have undergone a change in tariff classification at the six-digit level;
